

Bloom Green Booster

BORON + MOLYBDENUM

ADVANTAGES

- ◇ It increases pollination and setting of the crops.
- ◇ It mobilises sugars and nutrients from the leaf to the fruits.
- ◇ It prevents the premature falling of fruits.
- ◇ It favours cell division.
- ◇ It increases the quality of flowers.
- ◇ It promotes growth of the pollen tube in the stigma and in the style, guaranteeing excellent pollination.

GUARANTEED CONTENTS (% w/v)

Water-soluble boron (B)	9.1
Molybdenum (Mo)	3.9

PHYSICOCHEMICAL CHARACTERISTICS

pH: 7.75

Density: 1.29 g/ml at 20 °C

Water-soluble boron ethanolamine

DESCRIPTION

Bloombooster is formulated to prevent and correct the deficiencies of both nutrients, preventing a reduced budding and favouring crop growth and flowering. Furthermore, it also prevents the onset of chlorosis.

DOSAGE

FOLIAR APPLICATION

Sweet fruits Nuts Vine Citrus fruits Olive trees Horticultural crops	250 cc/hl Multiple applications
Alfalfa and other extensive farming crops	2.5 l/ha
